

**Inks, colors, and supplies...your way.  
Guaranteed!**

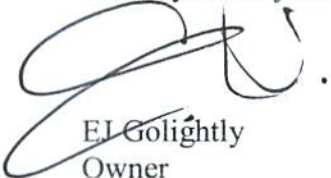

Dear One Stroke Inks Customers,

This letter is being sent to ensure our customers that since our inception, all products manufactured by One Stroke Inks are "Made in the USA". All design, and manufacturing is done at our only facility located in our hometown of Louisville, Kentucky.

We take great pride in the American work force and believe that American Made products are some of the best in the world. If we want to "Make it in America", it needs to be "Made in America"!

As our partner, we hope you share our same beliefs. Not only are you purchasing a top quality American Made product, you are also instrumental in sustaining the hard working American families that make up One Stroke Inks.

Thank you for your patriotism and continued support,

EJ Golightly  
Owner
