

FINE TRANSFER POWDER

TECHNICAL DATA SHEET

SHORT DESCRIPTION:

0 to 80 micron fine adhesive powder for use with regular temperature plastisol ink transfers. This product will provide improved adhesion, stretch, bleed resistance, and softness.

FINE TRANSFER POWDER BENEFITS:

- Can be applied manually or by powder applicator
- Excellent for detailed prints

Important Note: If you require maximum bleed resistance on fabrics such as sublimated polyester, Fine Transfer Powder is recommended.

Always perform a pretest print and test cure conditions on the fabric to be printed to establish the best results. Stir inks vigorously before each use. Viscosity may need adjusting for best results. If there is ever a question about a print job, call us at 800-942-4447. We are always happy to help!
