

TECHNICAL DATA SHEET: **SIMPLY PEEL TRANSFER PAPER**

INK DESCRIPTION

Simply Peel is a new breed of transfer paper which will allow you to peel whenever you choose. Hot, warm, or cold, the Simply Peel paper will release your ink. Also, you won't need a special transfer ink. This paper does better with inks that were not designed for transfers. Inks such as our ELT Series and other "universal" inks can make it difficult to transfer. Simply Peel solves this problem.

LOW TEMPERATURE APPLICATION

225°F for 15 seconds

As long as you are scattering the ELT Zip Fashion Powder, you can use these heat press settings. The ink must be fully cured to the paper.

X TRANSFER APPLICATION

285°F for 5 seconds

ELT/ELT-S/ELT-X inks can be printed to create the bleed resistant X Transfer. Apply ELT Zip Fashion Powder. The ink must be fully cured to the paper.

STANDARD APPLICATION

350°F for 12 seconds

Standard hot and cold peel transfers are possible. However, traditional transfer inks do not stick to this paper well. Shipping durability is a concern.

TIPS & TRICKS

- Paper handling is critical to the success of a transfer printer. Always pre-shrink the paper fully before printing the first color. Keep the paper fully shrunk throughout the process.
- Keeping the humidity low is critical to your success registering multiple colors.
- Simply Peel is a double-sided transfer paper.
- Controlling static is key to preventing adhesive powder from sticking to the paper where it doesn't belong. Consider an anti-static bar before the final step of applying the powder.
- Successful heat application is dependent upon a number of variables. However, even pressure across the entire platen is critical. If the collar, seam, button, or pocket cannot be avoided on the platen, use a heat press pillow.
- The digital thermometer on your heat press may not be accurate. Always test.
- If you fully cure your ink to the paper, try to wait at least a couple seconds before trying to peel the print. This will allow the glue to set and the paper to release easier.

TESTING DISCLAIMER

Always test supplies sold by One Stroke Inks before first use. All of the supplies we sell are covered by our unconditional money back guarantee. If there is ever a question of any kind, call us at 800-942-4447. We are always happy to help!
