

MATERIAL SAFETY DATA SHEET

1. Product and Company Identification

Product number 063-002

Product name C-60 Solvent De-Greaser

Effective date 13-Sep-2011
Company information Sprayway, Inc. 1005 Westgate

Addison, IL 60101 United States

Company phone General Assistance 630-543-7600

Emergency telephone US 800-424-9300 **Emergency telephone outside US** 703-527-3887

Version # 08

Supersedes date 16-Aug-2010

2. Hazards Identification

Emergency overview Aerosol. CONTENTS UNDER PRESSURE. May be ignited by heat, sparks or flames.

Irritating to skin. Irritating to eyes. Irritating to respiratory system. Prolonged exposure

may cause chronic effects. May cause cancer.

Potential health effects

Routes of exposure Skin contact. Inhalation. Ingestion.

Eyes Causes eye irritation.

Skin Irritating to skin. Prolonged or repeated contact can result in defatting and drying of the

skin which may result in skin irritation and dermatitis (rash).

Inhalation Intentional misuse by concentrating and inhaling the product can be harmful or fatal.

Irritating to respiratory system. Prolonged inhalation may be harmful.

Ingestion Exposure by ingestion of an aerosol is unlikely. May cause delayed lung damage.

Components of the product may be absorbed into the body by ingestion.

Target organs Central nervous system. Lungs.

Chronic effects May cause central nervous system disorder (e.g., narcosis involving a loss of

coordination, weakness, fatigue, mental confusion, and blurred vision) and/or damage. May cause delayed lung damage. Prolonged skin contact may defat the skin and

produce dermatitis.

Signs and symptoms Discomfort in the chest. Narcosis. Jaundice. Defatting of the skin. Irritation.

3. Composition / Information on Ingredients

Components	CAS#	Percent
Trichloroethylene	79-01-6	> 90
Carbon Dioxide	124-38-9	3 - 5

4. First Aid Measures

First aid procedures

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact

lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation

develops or persists.

Skin contact Remove and isolate contaminated clothing and shoes. Wash off with warm water and

soap. Get medical attention if irritation develops or persists. For minor skin contact, avoid

spreading material on unaffected skin.

Inhalation Move to fresh air. Oxygen or artificial respiration if needed. Do not use mouth-to-mouth

method if victim inhaled the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device.

Call a physician if symptoms develop or persist.

Ingestion

If material is ingested, immediately contact a poison control center. Have victim rinse mouth thoroughly with water. Do not induce vomiting without advice from poison control center. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Do not use mouth-to-mouth method if victim ingested the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device.

Notes to physician

In case of shortness of breath, give oxygen. Keep victim warm. Keep victim under observation. Symptoms may be delayed.

5. Fire Fighting Measures

Flammable properties Extinguishing media Runoff to sewer may cause fire or explosion hazard.

Suitable extinguishing media

Water. Water fog. Foam. Dry chemical. Carbon dioxide (CO2).

Protection of firefighters

Specific hazards arising from the chemical

Fire may produce irritating, corrosive and/or toxic gases.

Protective equipment and precautions for firefighters

In the event of fire and/or explosion do not breathe fumes. Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask. Containers should be cooled with water to prevent vapor pressure build up. For massive fire, use unmanned hose holders or monitor nozzles; if this is impossible, withdraw from area and let fire burn. Cool containers with flooding quantities of water until well after fire is out.

6. Accidental Release Measures

Methods for containment

Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Stop the flow of material, if this is without risk. Prevent entry into waterways, sewers, basements or confined areas.

Methods for cleaning up

Should not be released into the environment. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean contaminated surface thoroughly. After removal flush contaminated area thoroughly with water.

7. Handling and Storage

Handling

Pressurized container: Do not pierce or burn, even after use. Do not handle or store near an open flame, heat or other sources of ignition. Do not smoke while using or until sprayed surface is thoroughly dry. Do not use if spray button is missing or defective. Use only with adequate ventilation. Do not get this material in contact with eyes. Do not get this material in contact with skin. Wear personal protective equipment. Avoid prolonged exposure.

Storage

Contents under pressure. Do not puncture, incinerate or crush. The pressure in sealed containers can increase under the influence of heat. Keep away from heat and sources of ignition. Do not expose to heat or store at temperatures above 120°F/49°C as can may burst. Avoid exposure to long periods of sunlight. Keep out of the reach of children. Level 1 Aerosol (NFPA 30B) Do not store, incinerate, or heat this material above 120 degrees Fahrenheit.

8. Exposure Controls / Personal Protection

Exposure limits

ACGIH

Components	CAS#	TWA	STEL	Ceiling
Trichloroethylene	79-01-6	10 ppm	25 ppm	Not established
Carbon Dioxide	124-38-9	5000 ppm	30000 ppm	Not established
OSHA				
Components	CAS#	TWA	STEL	Ceiling

5000 ppm

Product name: C-60 Solvent Degreaser Product #: 063-C-60 Solvent Degreaser

79-01-6

124-38-9

Trichloroethylene

Carbon Dioxide

Personal protective equipment

Eye / face protection Wear chemical goggles.

Skin protection Wear appropriate chemical resistant gloves. Wear appropriate chemical resistant

clothing.

Respiratory protection When workers are facing concentrations above the exposure limit they must use

appropriate certified respirators. If permissible levels are exceeded use NIOSH

mechanical filter / organic vapor cartridge or an air-supplied respirator.

9. Physical & Chemical Properties

Appearance Compressed liquefied gas. **Boiling point** 186.8 °F (86.1 °C) estimated

Color Colorless.

Density 1.4645 g/cm3 estimated

Flammability (HOC) 0 kJ/g estimated

Flash back No Flash point None

Form Liquid. Aerosol.
Freezing point Not available
Odor Characteristic.
pH Not applicable

Physical state Liquid.

Pressure 72 - 92 psig @70F Solubility Negligible

Specific gravity 1.4646 estimated

10. Chemical Stability & Reactivity Information

Chemical stabilityStable at normal conditions.Conditions to avoidHeat, flames and sparks.Hazardous decomposition productsIrritants. Toxic gas.

11. Toxicological Information

Acute effects Acute LC50: 8282 mg/l/4h estimated, Rat, Inhalation

Component analysis - LD50

Toxicology Data - Selected LD50s and LC50s

Trichloroethylene 79-01-6 Inhalation LC50 Rat 8000 ppm 4 h; Inhalation LC50 Rat 26300 ppm 1 h; Oral LD50

Rat 4290 mg/kg; Dermal LD50 Rabbit >20 g/kg

SensitizationNot expected to be hazardous by OSHA criteria.CarcinogenicityHazardous by OSHA criteria. Potential cancer hazard.

IARC - Group 2A (Probably Carcinogenic to Humans)

Trichloroethylene 79-01-6 Monograph 63 [1995]; Supplement 7 [1987] **Teratogenicity** Not expected to be hazardous by OSHA criteria.

12. Ecological Information

Ecotoxicity Components of this product are hazardous to aquatic life.

LC50 42.13 mg/L, Fish, 96.00 Hours, EC50 2.28 mg/L, Daphnia, 48.00 Hours,

13. Disposal Considerations

Waste codes D040: Waste Trichloroethylene

Disposal instructionsContents under pressure. Do not puncture, incinerate or crush. Dispose of this material

and its container at hazardous or special waste collection point. Do not allow this material

to drain into sewers/water supplies. Dispose in accordance with all applicable

regulations.

14. Transport Information

Department of Transportation (DOT) Requirements

Basic shipping requirements:

Proper shipping name Consumer commodity

Hazard class ORM-D Subsidiary hazard class None

Additional information:

Packaging exceptions156, 306Packaging non bulk156, 306Packaging bulkNone
